

iPhoto 'Year in Review' Card

To export a still picture to iPhoto:

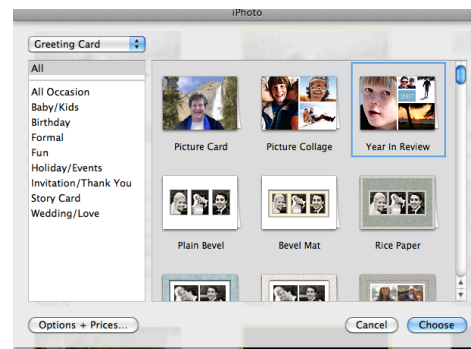

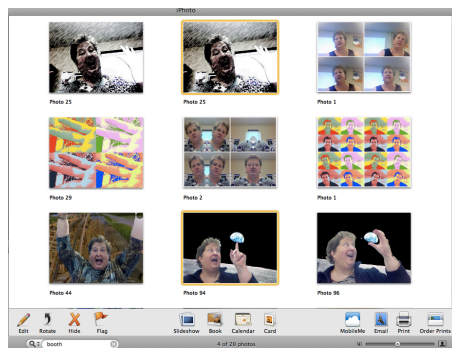

1. Click the thumbnail of the snapshot you want to add to your iPhoto library.
2. Click the iPhoto button.

iPhoto opens and saves the selected photo in your iPhoto library.

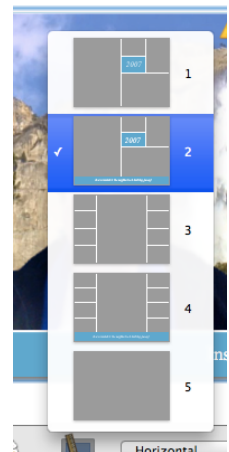

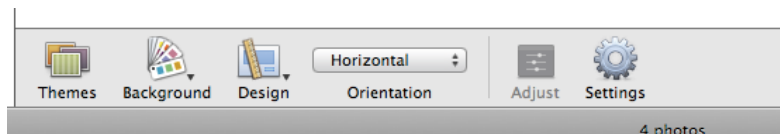

To export more than one photo at a time Command-click the 4 photos you will use.

Create an album for your PhotoBooth images.

Select the 4 images you want to use and click the **Card** project option at the bottom of the screen. Choose **Year in Review**

Go to **Design** and choose the second option, with text on the bottom.

Move your photos to the position you like.

Add your name to the bottom.

Remember. You must include the following photos

1. obvious it is you
2. special effect (your choice)
3. can't tell it's you
4. green-screen background

Print **From Page 1 to 1** to Room 608... (turn in extra pages printed if you missed this step)

The sub will cut off the edges.

Fold and turn in to **bottom metal tray** on extra desk.
